This newsletter is a collation of all the opportunities we have heard about from employers and universities. Please use the links included to read more information and apply to anything you are interested in. Links are underlined.

OPPORTUNITIES

British Science Week is a ten-day celebration of science, technology, engineering and maths that will place between 8 - 17 March 2024! There are lots of events happening, you can check them out here.

While there are well-documented challenges with diversity in science, technology, engineering, and maths (STEM), the people and roles that make up this varied sector are more diverse than the all-too-well-known societal stereotype of lab coats, goggles, and conical flask might suggest. Smashing Stereotypes consists of a collection of stories from individuals and teams that we hope will spark a change in perceptions of people and careers in STEM. Read them here.

The British Science Week 2024 poster competition is open now! The theme this year is 'Time', – there are loads of STEM topics were explored! Students could create a poster showing how a certain type of technology has changed over time, or even the advancement of time-telling technology itself. Budding poster makers could also go futuristic show us how they think the world might look in years to come, or perhaps look at nature – lifecycles, lifespans, evolution and hibernation – nature is full of timely topics. Read more and submit your entry by 28th March.

If you are a budding scientist, here is your opportunity to make a real difference to a current biological record. The 300-year-old national wildlife record needs British public to help scientists track spring across the UK. Records date back to 1736 and will help us identify winners and losers in wildlife populations. Read more about how you can help and get involved here.

JOB OF THE WEEK

This week's video focuses on the job role of a Herbalist.

They take a holistic approach to illness, treating the underlying cause of disease rather than just the symptoms. They are able to prescribe herbal remedies, many patients are referred to a herbalist by their GP.

Watch the video to learn more about how much you could earn, the qualifications you need & what subjects link to this career.

LABOUR MARKET INFORMATION FACT

According to the annual BBC Bitesize Careers survey, when asked which company or organisation teenagers could choose if they could work anywhere in the world, the NHS was the number one choice, ranking ahead of Apple in second, Google in third and NASA in fourth place.
