

CAREERS NEWSLETTER

This newsletter is a collation of all the opportunities we have heard about from employers and universities. Please use the links included to read more information and apply to anything you are interested in. Links are underlined.

Opportunities

Open Doors takes you behind the scenes to showcase the fantastic range of careers available in construction. On Monday 23rd – Saturday 28th March 2026 across all types of construction sites, as well as training and manufacturing facilities, depots and offices – online sessions will also be available. Bookings will open on Monday 12th January 2026.

Go Construct provides resources for anyone looking for a career in the construction and built environment sector. With so many roles available in construction it can be hard to know where to start, why not learn more about these career options... Find a role for you.

This virtual work experience gives you a behind-the-scenes look at how Arcadis engineers, designers, and project managers solve some of the world's biggest challenges. You'll explore the history and future of architecture and infrastructure, meet professionals shaping our built environment, and reflect on how your skills could make an impact.

Bowmer + Kirkland is one of the UK's most successful construction and development companies. Discover life in pre-construction, construction management and commercial, and hear from the experts at the forefront of it all. Find out more here.

Join AtkinsRéalis and you'll work on global projects across diverse sectors, tackling today's most pressing challenges. From growing populations and transportation needs to climate change – you'll help merge ingenuity, knowledge and technology to uplift communities and engineer a safer, better tomorrow. Explore roles here.

Discover how adventure can build the skills needed to lead, inspire, and make a difference. This session on Wednesday 14th January - 10:00 - 11:00, explores real stories from expedition leaders who've faced challenges in the world's most extreme environments. Learn how teamwork, resilience, and problem-solving in the wild translate into powerful lessons for leadership in any career path.

Career of the Week

Building
Surveyor

As a building surveyor, you'll complete detailed reports, known as building surveys. Within these, you'll identify defects and advise on repair, maintenance and restoration options. You may implement preventative measures to keep buildings in good condition and look for ways to make buildings sustainable. A large proportion of the working day spent on site.

Labour Market Fact

For Young People aged 16-24, employment levels are up by 17,000. The employment rate has increased by 0.2%, now at 52.2%. This means there were 3.89 million young people in employment in July to September 2025.

If you're looking to be part of a dynamic, forward-thinking company, there are a variety of early talent opportunities waiting for you."

Find out more [here](#).

World Spotlight

Country: Australia

Key Links: [Study in Australia](#) | [Visa Information](#)

Key Information:

- Australia is considered one of the most expensive countries for overseas students. On average, annual tuition fees and living expenses can amount to over £30,000.
- Universities typically run on a two-semester system (February to June and July to November), but some use trimesters, giving you more flexibility.
- Most Australian Bachelors degrees take three years to complete, but you can add an extra year for an honours programme, which often includes a research project and can boost your chances of postgraduate study.
- For some courses, you'll also need specific subject backgrounds. Creative courses may require a portfolio or audition, while science, medicine, and engineering degrees often ask for prior study.

Uni Spotlight

"Join an inspiring and collaborative community that champions individuality and student support. At the University of Roehampton, you'll enjoy future-proof courses designed with leading employers, industry experts teaching you from day one and professional-standard facilities to prepare you for the world of work."
