This newsletter is a collation of all the opportunities we have heard about from employers and universities. Please use the links included to read more information and apply to anything you are interested in. Links are underlined.

Opportunities

The Students' Guide to University 2026 will allow you to make an informed choice about university. It includes articles to help you decide whether university is right for you, what you should study, and where you should study it. Contributions have been provided by over 80 university representatives from across the UK.

Degree Apprenticeships 30 Minute TV Programme is a helpful introduction for Sixth Form students and parents. The programme explains what degree apprenticeships are, which ones are available, and how they compare to a traditional university route.

Here are some apprenticeships opportunities that have opened recently that you might be interested in:

- Morgan Stanley (with Multiverse). Opportunities across research, operations, human capital management and more.
- EY - 2026 Apprenticeship Programmes. Launch a career in business, finance or technology. Earn while you learn and gain real client experience with dedicated support.
- Sir Robert McAlpine Apprenticeships combining experience on landmark projects with recognised.
- Stronger Starts Maintenance Apprenticeship. is a 18-month programme sets you up with the skills you need for everyday duties in maintenance jobs.

The British Science Week poster competition takes place every year and invites young people from across the UK to take part. In 2026, the competition theme is taking curiosity to the next level! We're working with a team of scientists and researchers who are curious about what children and young people think will make a 'good'/'positive' childhood in the future. The competition is now open for entries; the closing date is 6 pm on Thursday 16 April 2026.

Have you ever wondered how space technology can help us here on earth? Or how space can affect astronauts' bodies? In this lesson, you will discover how cutting-edge innovations are shaping the future of technology and find out about some of the diverse technology careers they could pursue in the space health industry. In collaboration with RAF Charitable Trust.

If you have any questions or need support, please email Zoe.Uphill@akslytham.com

Career of the Week

CNC
Machinist

A CNC machinist is a skilled technician who sets up, programs, and operates computer-controlled machinery (lathes, mills, grinders) to produce precision metal or plastic components.

They interpret technical drawings, select tooling, and ensure strict quality standards for industries like aerospace and automotive.
